

Collier Elementary Room Parents

Are you looking for a way to get involved with your child's classroom this school year? Consider signing up to be the room parent for their classroom! Room parents help support teachers and help communicate classroom needs to other parents throughout the school year.

What is a room parent? A room parent is a parent or family member of a student in each class who volunteers to help coordinate communication between the teacher and other parents in your child's class.

What does the room parent do? Room parents will have a few main jobs:

1. Maintain a list of contact information for parents who opt-in to classroom communications via email or text messaging.
2. Helping to recruit volunteers for classroom support like reading to students, chaperoning field trips, or other teacher needs.
3. Send out reminders about school events, classroom projects and activities, field trips, etc.
4. Communicate with parents the needs of the classroom (snacks, supplies, etc.)
5. Help to organize class parties or teacher gifts.

How many room parents do we need? We are hoping for 1-2 room parent volunteers for each classroom!

This is a great way to meet new people, support your child's teacher, and be involved in your school community during the 2022-2023 school year! We have many fun events planned and need your help to make it all happen.
